

Diva Princessa Launches Its Fabulous Jewellery Range With Five Collections

Diva Princessa launches its collection of different themed jewellery ranging from Victoriana to Glam to Rocker chic. "Sparkle, Darling, Sparkle" is the tag line and the bijoux jewellery collection offers a number of wear opportunities.

Diva Princessa bijoux jewellery is made from different materials with the use of vintage components teamed with Swarovski Crystals, Crystal pearls, Lucite beads, crystal pearls, chain, acrylic and other fabulous components resulting in jewellery that is distinctive with an old fashioned, old world, old school lady like elegance.

Diva Princessa takes its influences and inspiration from Glam Rock, Victoriana, Rocker Chic, Disco, Vintage, Kawai, Gothic and Casino chic and mixes it up to provide five collections, each very distinct from the other. Think crystal pearls teamed with chains and butterflies, long jet necklaces embellished with crystal and cameos and shiny acrylic name necklaces, extra long statement necklaces made with large crystal pearls interspersed with sparking Swarovski crystals and finished with vintage cameos and settings and embellished with ribbons, bows and chain.
